Ex-Service Men Attention!

On November 11, 1920, the Government will distribute the Victory Medal through the American Legion. Adair Post No. 99 is ready to procure this medal for members and non-members of the Legion alike. All men who served during the late war are entitled to this medal, and those desiring to make their applications through the local post the Legion will please see Commander E. W. Reed or the post adjutant at once. All applications for this medal must be accompanied by a copy of the applicants discharge papers. Do not delay, make your applications at once.

Ralph Hurt, Post Adjutant.

Frightful Accident.

Last Sunday week Mr. Ezra Curry and Miss Myrtle Akin, daughter of Mr. and Mrs. Evan Akin, were en route from the young ladies' home, near Sparksville, to the Chestnut Grove church. On their way the mule they were driving became frightened and started at breakneck speed. The buggy was upset and the occupants thrown violently to the ground. Both were considerably bruised, but fortunately no bones were broken. Mr. L. Akin who gave us the above, said that it was a miracle that both the occupants of the vehicle were not killed.

In Critical Conditions

Messrs. Robert O. Keltner and Mariada Wilson, two old ex-federal soldiers, living at Gradyville, are in critical condition, so much so that they are not able to leave home. Dr. W. F. Carlwright, one of the Board of examiners, went to their residences last Wednesday and examined them. Mr. J. N. Coffey, who has known the old gentlemen all his life, accompanied the doctor. He informed us that according to their conditions and their ages, Mr. Keltner being 83 and Mr. Wilson 79, their time is about up. Mr. Keltner, especially, is well known about Columbia.

Public Sale.

On Saturday, October 9, 1920, I will sell at my residence, on Campbellsville pike, four miles from Columbia, the following:

One pair mules, 6 years old and 16 hands high. One good milk cow, six years old. Three hogs, will weigh from 200 to 300 pounds. One 3 1/2 wagon and bed. One rubber tire buggy and harness. Died at Clementsville.

Friday of last week Mrs. Jane Wethington, wife of Mr. Eugene Wethington, well-known in Columbia, died at her late home, Clementsville, Casey county. She was a devout member of the Catholic Church, and was a lady of many noble traits of Christian character. She believed in benevolence, and practiced it. She will be greatly missed, not only by her surviving husband and several children, but by the entire community. We extend our condolence to those who have been so sorely bereft, admonishing them to look to God for comfort in their trying hour. The deceased was about 43 years old. Her brother-in-law, Mr. Robert Wethington, this place, attended the last sad rites.

LOUISVILLE COLONELS VS C-VILLE "N-J"

At Campbellsville, on Thursday, October 7th, 1920. Large Crowds Sure To Witness the Contest.

A great treat is in store for the baseball fans of Campbellsville and adjoining towns. Manager Jo McCarthy and his Louisville American Association Club, better known as the Colonels have been booked to appear at Campbellsville, on Thursday, October 7th, in a game against the "N-J" Base Ball Club of that city. The game was arranged by J. P. Gozder, President and business manager of the Campbellsville "N-J's." The coming of the Louisville club will mark the first time a professional baseball team has ever appeared in that vicinity for many years, and it is needless to say that the fandom is promising a great turnout for the Colonels. One of the largest crowds that has ever attended a baseball game in this vicinity is sure to witness the contest.

Manager McCarthy has promised his regular lineup to appear against the Campbellsville team. Included in the lineup will be the great Indian Ben Tincup. Tincup can play any position on the team and at present ranks among the best batters in the league. He will either pitch or play the outfield against the "N-J" boys. The Indian is a great favorite wherever he plays and the fans of this section are sure to give him a great welcome. Tommy Long, of no-hit fame, the best southpaw in the minors last season and Emilio Palmero, the Cuban, will be the other hurlers with the Colonels. The rest of the lineup will be made up of Jay Kirke, first base, Bruno Betzel, second base; Chuck Wortman, shortstop; Joe Schnepner, third base; Joe McCarthy or Tincup left field; Merito Acosta, center field; Roy Massey, right field and catchers Bradley Kacher and Bill Meyer.

The Campbellsville "N-J" team played this season 29 games and only lost five. It is one of the best organized teams of any in this section, and no doubt will play the Colonels an interesting game. Make your arrangements now to see the Colonels play. Tickets now on sale at Russell & Taylor's drug store, Columbia. Mr. Alvin Lewis of this city, will catch the game scheduled, and Columbia and Adair people must turn out to see this game.

Arrested on a Forgery Charge.

Last Friday Wm. McAllister and Dolphus Galan were in Columbia and they were frequently seen together. McAllister entered Russell & Co's store, bought a bill of good from Doc Walker and tendered a check for \$20. with Ed Hancock's name signed made payable to him. Mr. Walker gave him the balance in cash, but at once became suspicious and went immediately to the Bank of Columbia, and learned that the check was a forgery. The boy was returned to the store where he was relieved of the goods and the money that had been given him. It was then learned that he had presented a check to J. H. Goff for \$15.00 signed by Thomas & Mears, endorsed by him. Goff declined to accept the check, and called the Bank of Columbia.

J. W. Flowers cashier of the bank, started out to find McAllister, but learned that he and Galan, who is an ex-soldier, had left town. Officers and Mr. Flowers left town to overtake them. They were found at A. G. Todd's spring, on Pittsford. They were brought to town, but there was not evidence sufficient to hold Galan, but McAllister was lodged in jail where he will, like remain until the grand jury meets in November.

Reduction in The Price of Ford Products

The war is over and war prices must go. Effective at once. Ford Cars, Trucks and Tractors will be sold F. O. B. Detroit, at the following prices:

Touring	\$440.00	Chassis	\$360.00
Touring, Starter	\$510.00	Coupe, Starter and D. R.	\$745.00
Runabout	\$395.00	Sedan, Starter, and D. R.	\$795.00
Runabout, Starter	\$465.00	Truck, P. T.	\$545.00
Tractor	\$790.00		

The Ford Motor Company makes this reduction in the face of the fact that they have on hand immediate orders for one hundred and forty-six thousand and sixty-five cars and tractors. The Company will suffer a temporary loss while using up the material bought at high prices. They are willing to make the sacrifice in order to bring business back to a going condition as quickly as possible and maintain the momentum of the buying power of the country. Henry Ford says:

"The war is over and it is time war prices were over. There is no sense or wisdom in trying to maintain an artificial standard of values. For the best interest of all it is time a real, practical effort was made to bring the business of the country and the life of the country down to regular pre-war standards."

We are at your command with regular Ford Efficiency in service and eagerness to fill your orders.

INCORPORATED.

Gov. Cox Indorsed by Labor Heads.

Gov. Cox is indorsed for election as the true friend of the workingman by the American Federation of Labor in the report, given out, of its Non-Partisan Political Campaign Committee.

President Samuel Gompers, Vice President Matthew Woll and Secretary Frank Morrison who make up the committee, have made their decision on the basis of the action of Gov. Cox and Senator Harding on measures in which labor is interested and on their public utterances.

"There can be but one conclusion based upon a careful and impartial survey of the actions and declarations of the candidates," they say. "Gov. Cox has shown himself possessed of a fuller understanding of the needs of the working people, a readier response to their needs and their proposals and a broader statesmanship in his public discussions of the problems of the industrial world."

Dog-Gone Good.

Lancaster, Ohio.—Peter O'Brien won a half mile dash today, his time being nothing flat.

And Peter had a good reason for breaking the world's running record, because his opponent was his dog, Pedro, in whose mouth was a stick of dynamite, with its fuse burning.

It happened that Peter is a turtle hunter, living in the Clear Creek valley. Today he calmly

applied a match to a stick of dynamite and threw the sputtering explosive into a creek.

Pedro, thinking Peter was playing with him, jumped into the water and caught the dynamite between his teeth.

When he started to swim back toward Peter, the latter started to highball it for home, half a mile away. Pedro ran fast but Peter ran faster, and just as he entered his house, there was a terrific explosion.

Now a ten foot hole in the road marks the place where Pedro once ran.

Came in Bunches.

A dispatch from Murray, Ky., says:

Bunk Jones was pacing the floor as prospective fathers are wont.

"Triplets" was the announcement.

Bunk Jones continued to pace the floor as prospective grandfathers are wont. An hour passed.

"Twins."

Bunk Jones did not alter his course. He still paced the floor. Another hour passed.

"A granddaughter."

And there are six howling good reasons why Buck Jones, farmer, near Murray, is "all smiles."

Before his wife, who is 42 years old, gave birth to triplets, Mrs. Willis Jones, daughter-in-law, was sent for. An hour after arrivals of triplets, Mrs.

Jones presented "Granddaddy" with twins.

In the meantime, Mrs. Asiah Parks, a daughter, had been called in to attend the two mothers. Within less than an hour she, too, had become a mother, a daughter completing the sextette born in the same house within three hours.

Time was when no one ever thought that the country would go dry, or that women would be allowed to vote, or that—but shucks, now-a-days we never know what is going to biff us on the bean next.

A lazy no-account feeling with yawning and sleepiness in the day time is caused by a torpid liver and disordered bowels. Herbine is a splendid remedy for such ailments. It cleanses the system and restores vim and activity. Price, 60c Sold by Paul Drug Co Adv.

We confidently look for a heavy increase in the male vote at the November election. No spirited man wants to have his neighbors chuckling over the thought that he had to stay at home and mind the kids while his wife did the voting.

THE "OLD RELIABLE" THEDFORD'S BLACK-DRAUGHT

White Haired Alabama Lady Says She Has Seen Medicines Come and Go But The "Old Reliable" Thedford's Black-Draught Came and Stayed.

Dutton, Ala.—In recommending Thedford's Black-Draught to her friends and neighbors here, Mrs. T. F. Parks, a well-known Jackson County lady, said: "I am getting up in years; my head is pretty white. I have seen medicines and remedies come and go but the old reliable came and stayed. I am talking of Black-Draught, a liver medicine we have used for years—one that can be depended upon and one that will do the work."

"Black-Draught will relieve indigestion and constipation if taken right, and I know for I tried it. It is the best thing I have ever found for the full, uncomfortable

feeling after meals. Sour stomach and sick headache can be relieved by taking Black-Draught. It aids digestion, also assists the liver in throwing off impurities. I am glad to recommend Black-Draught, and do, to my friends and neighbors."

Thedford's Black-Draught is a standard household remedy with a record of over seventy years of successful use. Every one occasionally needs something to help cleanse the system of impurities. Try Black-Draught. Insist upon Thedford's, the genuine.

At all druggists.

Any person can give good advice, but it's quite a different thing to set a good example.

The man who overrates his ability generally learns when too late that he had none to overrate.

The Bible admonishes us to tell the truth, but wisdom dictates that we be careful who we tell it to.

Make a practice of surmounting the little problems of life and there will be no big ones to bother you.

It is human to admire men who "do things," but there are times when we think more of those who don't.

INDIANS WORSHIP SUN

Ancient Customs Carried Out
Amid Weird Surroundings.

Every Year in Midsummer Bannock
Indians Go to Dancing Grounds
for Rite of Thanks.

Pocatello, Idaho.—Every year in midsummer the Bannock Indians travel a little-used trail to their dancing grounds. Between 800 and 1,000 of them gather yearly to worship the sun.

In the vast quiet of the evening, when the hush has fallen over the sage brush and the sun is a great ball of red fire sinking behind the mountains, the dreary beat of their tomtoms and the low, ghostly chant of their song can be heard for miles. The sound grows in strength as one approaches until with a great burst of singing campfires and seeming confusion the camping grounds are reached. Indians in their native garb are everywhere, hideous in their war paints and with glistening naked bodies.

In the center of a corral made from limbs stands a pole. Back against the walls are the dancers and the chanters, and in rhythm to the beat of the tomtoms the dancer advances to the pole, eyes uplifted in worship.

The young bucks who dance are not permitted to eat or drink for three days and are accompanied by the tomtoms beaten by the squaws. The dance is a religious rite and festival of thanks to the gods for bountiful crops and herbs, streams full of fish and the sky full of fowls.

Now and then one falls to the ground unconscious from physical exhaustion and is carried to the side to recover.

GREAT DRY DOCK IN NAPLES

Italian Government Authorizes Construction of Mammoth Dock on Mediterranean.

Washington.—The largest dry dock on the Mediterranean is planned at Naples.

Recent decrees of the Italian government authorizing the construction of this dock and a smaller one at the industrial port of Bala-Averno provide that work must begin within six months of the official date of the declaration of peace.

Besides the dry docks, it is planned to transform Lake Averno for the use of ship yards, and to build a canal connecting the lake with the port of Naples proper.

The Italian government will within a period of fifty years pay about half of the cost of the work and at the end of sixty years the entire property automatically becomes government property.

EX-KAISER FEELS HIGH COST

Exchange on German Mark Prevents Former Emperor Renting Staff Quarters.

Doorn, Holland.—The former German emperor, William, is greatly worried about the low exchange rate of the German mark. Recently, in hope of securing quarters for some of his staff, he has priced a number of houses in the vicinity of Doorn.

The prices have been quoted in Dutch guildens, but William reducing everything to marks, has thrown up his hands and called the prices preposterous.

Butted Into Pigsty.

Montgomery, Pa.—While gazing with pride at his pen of fast-fattening hogs and dreaming fond dreams of juicy hams during the coming winter season, Gustav Stoney of near Montgomeryville was awakened from his reverie when a goat butted him over the rail of the pigsty among the pigs. The porkers crawled all over him and Stoney and the pigs gave grunts, squeals and yells. Finally Stoney's son came to his father's rescue. He chased off the pigs and Stoney, the elder, emerged from the pigsty. He was cut and bruised.

BIG TREE YIELDED TO AGE

Chestnut in Which Washington Is Said to Have Hidden Collapses at Yonkers, New York.

Maybe there's no truth in the tradition that George Washington once hid in the hollow trunk of the great chestnut tree that until recently stood in the front yard of Charles F. Coy, Yonkers, New York. But folk thereabouts believe he did, just as they believe that the tree was 700 or 800 years old when it died a few years ago, and was the oldest and biggest tree of any variety not only in Westchester county but in New York state.

The trunk, which was about 35 feet tall and about 35 feet in circumference, according to Mr. Coy, was cut down by the department of public works of Yonkers, and its dismembered remains carted away. Said Mr. Coy:

"Before it died that tree produced the biggest and sweetest-tasting chestnuts I ever saw. After its death a vine that covered it made it still an object of beauty, just as its vast size and age made it an object of admiration.

"The top was broken off about the time it died. I never knew its exact height. But I do know that a deal of tradition had grown up around it and that it commonly was rated the largest tree in this part of the country. I am sure it was the biggest in this county."

TO DESTROY INSECT PESTS

Two Forms of Insecticides Necessary for Successful Protection of Plants and Foliage.

Do not waste your time spraying Paris green on insects that suck the juices from plants and foliage, such as lice, green, black and white aphids or fly, mealy bug, red spider and scale, by thrusting their proboscis into the leaf or stem, for they are not affected by stomach poisons. They must be destroyed by contact insecticides. Those in powder form kill by closing the breathing pores in the insect's skin, or in fluid form by being absorbed through these pores, the American Forestry Magazine points out. The best contact insecticides in powder form are helioth, slug shot and tobacco dust. The best in fluid form are apholine, black leaf 40, fish (whale) oil soap, nicotine (tobacco extract), kerosene, miscible oil and lemon oil.

Insects that eat plants, foliage, vegetables, fruits, flowers, etc., whether bugs, beetles, worms, caterpillars or slugs are more quickly and effectually destroyed with a poisonous stomachic insecticide such as arsenate of lead, Paris green or helioth. These, if applied according to directions, are so diluted as to be harmless to vegetation and to animal life. Less poisonous stomachic and contact insecticides are kerosene emulsion, slug shot, etc.

Boy "Policeman" Gets Results.

Bill Zerbe, formerly of Indianapolis, is motorcycle policeman in the Logansport police department. Both the young and old know Bill because of his record as a tamer of speeders.

A few days ago the driver of an automobile permitted the motor of his machine to run while he went into a store. When he came out he found a piece of paper in the front seat of the car. On the paper were these words: "You are pinched for permitting the engine of your machine to run over 15 minutes. Bill Zerbe."

The driver of the car went to police headquarters to pay his fine and exhibit the evidence that he had been caught. On being assured that the paper presented had not been prepared by Zerbe, the driver of the machine recalled that he had seen a small boy with a broad grin on his face standing near when he started toward the police station.—Indianapolis News.

Electricity to Locate Metal.

The idea of using current transmitted through the earth as a means of locating metal ores is familiar, the belief being that the greater conductivity of these metalliferous regions can be clearly indicated, and the area mapped out, says the Scientific American. The location of oil deposits, which according to the Electrical Review is now being investigated electrically, presents a converse problem. In this case the insulating properties of the oil diminish the current, and oil-bearing regions are detected accordingly. In view of the great depth to which it is often necessary to bore for oil—that only exists simultaneously with an almost oil-free area above—the method would seem to have limitations, but it has doubtless possibilities in dealing with surface oil areas.

That Decided Him.

George was in a despondent mood. "But, Mabel, dear," he said, "marriage is out of the question just now. You seem to have forgotten that I'm a poor clerk on a meager salary."

"Oh, George, don't let poverty interfere with our happiness. We can live on one meal a day, if necessary."

"But you know nothing of household duties, sweetheart. Why, you can't even cook."

"Indeed, I can, love. I have kept it secret from you but the time has come for my confession. George, dear, I got a certificate from a domestic science school three months ago."

The young man gasped. "My darling," he said, "come to my arms. It shall be as you wish—one meal a day will be more than enough."

FONTHILL

Health of community is fairly good at this writing.

One of the heaviest rainfalls of the season fell here Saturday. The late planted corn will be much improved.

Mr. Riley Withers was in Cincinnati last week buying goods.

Mr. Marion Delk of Windsor was here on business Wednesday.

Mr. J. W. Isaacs, traveling salesman for the Cumberland Grocery Co., was here Wednesday.

Mr. E. J. Walters, who has been visiting at Frankfort, returned home Sunday.

Mr. John Rexroat, a prominent lumber dealer of Taylor county, visited Mr. E. C. Bradshaw last week.

Mr. Virgil Rexroat has a nice dwelling erected on his farm near Decatur.

Mr. F. W. Luttrell and wife visited relatives near Pellyton, Saturday.

Mr. Dewey Luttrell, who has been attending school at Bowling Green, is visiting home folk at this writing.

On September the eighth friends gathered at the home of James Ragle and wife, it being their fiftieth wedding anniversary. The table was well laden, and it will be a day long remembered by all present. May the aged couple spend many more happy years together.

Mrs. Tella Vonlingar, who has been visiting here, returned to her home at Mansfield, Illinois, Wednesday.

Mr. O. D. Smith and wife, of Jamestown, visited here Sunday.

Mr. Charlie Winfrey, in company with other revenue officers raided the moonshining District a few miles north of here last week. They destroyed four stills.

We are glad to note this was the most successful raid ever made on the borders of Casey and Pulaski counties. A prominent deputy sheriff of Pulaski county was placed under bond. When the county officials favor whisky we will often see the effects

Democratic Ticket

FOR PRESIDENT
JAMES M. COX, of Ohio.

FOR VICE-PRESIDENT
FRANKLIN D. ROOSEVELT,
of New York.

FOR UNITED STATES SENATE
J. C. W. BECKHAM.

FOR CONGRESS
RALPH GILBERT
of Shelby County.

Senators Underwood and Heflin of Alabama, will speak in Kentucky for the Democratic ticket.

The campaign is now at fever heat, every State in the Union being busy, urging the voters to be at the polls.

Gov. Cox was met by large crowds in the West, and his visit evidently made many votes for the Democratic ticket.

Every Democrat in Adair county, both men and women should bear in mind that it will be necessary for every one to vote.

It is given out that the Kentucky State Fair cleared about one hundred thousand dollars. This certainly shows good management.

Franklin D. Roosevelt, Democratic candidate for Vice President, will make twelve speeches in Kentucky, beginning the first of October.

Every mother and every sister should vote for Gov. Cox because he stands for the League of Nations, a document, when it passes the United States Senate, will for all time prevent another World war.

The Rexall Drug People, who took a straw vote four years ago in the Presidential contest, reporting the result correctly before the election, is taking the vote throughout the United States in this contest. Up to the present, Gov. Cox is leading largely.

The cause of the great destruction on Wall Street, New York, by a bomb, has not as yet been determined. The latest theory is that it was an accident, yet there are many who believe that it was the work of anarchists. The investigations goes on.

"If the League of Nations is turned down," the Rev. Dr. E. L. Powell, of Louisville, addressing the morning session, of the Disciples of Christ, said "the crucifixion of Armenia and Syria by the Turks and Kurds under German leadership will continue in the land where Christianity was born."

A two million campaign fund will be sufficient for the Democrats, so James W. Gerard testified before the Senate Campaign Investigating Committee last Wednesday. Mr. Gerard is the former Ambassador to Germany.

Congressman Robison is speaking in Eastern Kentucky in the interest of the Republican ticket. A correspondent says that he takes up various subjects. Any person who knows him, knows that he could speak day in and day out for a week or two and say nothing.

Louisville has become a very wicked city and there is no excuse for the devilment that nightly goes on there, a large police force supposed to be on watch. The latest is enticing a young girl into an automobile, drive her to a secluded place and with threats to kill if she makes a noise, keep her for an hour or two. Police walking their beats all time. To allow such conduct to go without punishment, is a disgrace to civilization. The good women of Louisville ought to rise up and say to those in authority that if you can not protect decent people, we can and will if you will place us in position to act.

MAKING VOTES.

Congressman D. H. Kincheloe is making some telling speeches in this campaign. Addressing an audience at Madisonville a few days ago he said:

"With the exception of placing some necessities of life under high tariff, the Republican Congress, recently adjourned, did nothing but appropriate," declared Mr. Kincheloe. "The total appropriations amounted to four times as much as the peacetime appropriations of any previous Congress."

Referring to the Republican charge that the United States, if a member of the league, would have only one vote and England six, Mr. Kincheloe declared that under the league plan England, France, the United States and other world powers would each have one vote in the League Assembly and her provinces would have six votes.

"What," he asked, "would America have to fear from those six votes when there are fourteen central and South American republics already in the league that would cast their votes with the United States?"

COX AND HARDING CONTRASTED.

In addressing an Ohio audience last week, Gov. Brough, of Arkansas, said:

"Ohio's splendid progressive and constructive Governor, James M. Cox, has said we should go into the league; Harding, the reactionary, who voted against the farm loan act, insulted the champions of woman's suffrage by saying that he was tired of moral and economic issues being thrust upon the attention of the Senate, has said we must stay out of the league."

"Do you wonder that Wall Street is contributing heavily to this slush fund, realizing, as big business does, that Senator Harding's triumph would mean the emasculatation of the Federal Reserve system and the repeal of the farm loan act, which would mean 10 per cent. interest

for our farmers instead of the present low governmental rate of 4 1/2 per cent?"

"Does any laboring man or women in the audience feel that it would be common gratitude to vote against Governor Cox, the champion of the workmen's compensation act, the eight-hour working day and great and salutary social reforms?"

"Whether you are Republican or Democrat, are you willing to vote for a candidate like Senator Harding, who abused Theodore Roosevelt as a 'political faker,' a Benedict Arnold, an Aaron Burr who dodged 1,163 roll calls in the United States Senate?"

Are the Republican farmers of Ohio enthusiastic about a candidate who advocated dollar wheat and later a return to normalcy?"

Knifley Items

The pike from Knifley to Neatsville is progressing finely, and it will be completed before cold weather. It is a road that is very much needed. It is a stock pike, the company made up with men living along the route, and Mr. Ray Williams is the President and Mr. J. V. Dunbar Secretary.

Evans Bros. are now cutting their timber which they sold to Mr. Whitney. It will be delivered in the log to Campbellsville. It is a choice lot of oak and poplar. Parrott & Gowdy are also hauling out their lumber. They had forty teams here last week.

Lee Durham, of Greensburg, has opened a log yard here, and is receiving quite a lot of very fine logs.

A new school-house is going up at Spout Spring, and will be ready for occupancy in a week or two.

G. W. Rubarts and family have removed from our midst to Campbellsville. They are fine people.

Editor of the News:—

Encouraged by Senator Warren G. Harding's promise that the negro race should have a fuller measure of participation in public affairs, negroes of Louisville held a rally this week to push the candidacy of Richard Lovett, a young negro, for the Board of Education, and to unify opposition to the million dollar school bond issued here.

The "Kentucky Reporter" a negro newspaper in giving an account of this meeting described the candidate "Mr. Lovett as a young man of sterling qualities. He is a race man through and through, and never admits for a moment any inferiority or any inequality of man on account of color or race. He has always taken an active and enthusiastic part in organizations and movements whose purpose it is to better conditions."

Wm. Warley, the young negro who ran for the Legislature in Louisville, but was counted out by a scant margin in the Republican primary; I Willis Cole and R. T. Berry, negro newspaper men, all declared in speeches that the colored people do not share in party or governmental affairs any where near their voting strength.

They urged opposition to the bond issue for Louisville schools on the ground that it represented taxation without representation.

Clell C. Cannon, finance officer Akron Post 209 of the American Legion, was elected state treasurer of the American Legion of Ohio recently at the state convention held in Youngstown. He had no opposition. His candidacy was backed by the post, which is one of the largest in the state and is composed almost entirely of employees of the Goodyear Tire & Rubber Company who served in the World War. Cannon is a veteran of 136th Machine Gun Battalion and saw nearly a year's service overseas.

Thousands of the former U. S. army and navy airplane pilots and observers are intensely interested in the Gordon Bennet trophy race that is to be held in France this month. They are optimistic that America will have the fastest machines that can be turned out by European aircraft manufactures. One of America's entries is the monoplane built by the Curtis Company for S. E. J. Cox of Houston Texas, which will fly the colors of the Aero Club of Texas. It has been named "The Teas Wildcat." But 19 feet long and having a wing spread of only 25 feet, the plane with its fullload of 2200 pounds has been driven 183 miles an hour by its 12 cylinder 400 horse-power motor. This is about 20 miles an hour faster than any previous American record. With smaller wings, which are to be used in the race, it is expected that a good speed 200 miles an hour will be reached. The plane is equipped with Goodyear airplane tires for landing at high speed. The "Wild-cat" will be piloted by Roland Rohlf, former holder of the world's altitude record, while Clarence Combs, a former army pilot, will be his alternate.

Why We Pay.

The indictment and prosecution of profiteers and gougers in some sections of the country comes as a ray of hope to a people groaning under the burden of exorbitant prices for everything we eat, wear or use.

It is not the retailer who is feeling the weight of the law, as his prices as a rule are quite within the bounds of reason—at least in the country towns and rural districts.

The gougers who are being hit are generally middlemen or wholesalers, who have been juggling the products back and forth, with a price boost at every juggle.

Normally, the law of supply and demand regulates the price of a commodity. But it has not been so since the beginning of the war, because times have not been normal.

One of the principal reasons for existing high prices is the fact that a commodity passes through too many hands before it reaches the consumer, and most of those hands are experts at the pleasing and lucrative occupation of gouging.

If public officials had taken a firm stand as soon as the gouging commenced—if they had filled the jails when the evil was in its infancy—profiteering would never have reached the gigantic proportions which now stagger the country.

But they didn't, and because of their laxity we are paying the penalty today.

Even at this late day, if our public officials can be brought as a body to a realization of their duty—if they can be prodded into an energetic performance of

that duty—we may some day expect the law of supply and demand to again regulate the price of the food we eat and the other necessities we require in our daily life.

We begrudge no man a dollar or a million that is made honestly, but that which is accumulated by dishonest or unfair practices should land its possessor in prison. —Lancaster Record,

Harding Worries His Party.

Wholesouled and unrestricted support of Warren G. Harding, the Republican candidate for president, is proving a trying effort for many Republican newspapers.

With Senator Harding's attempt to substitute his own plan of world peace for the League of Nations, already subscribed to by twenty-nine of the leading nations of the world, the majority of Republican press finds severe fault.

On this point the Philadelphia Public Ledger, Republican, predicts that Senator Harding "will not arouse any tremendous enthusiasm in this practical nation by rallying it to take a noble stand on the rotten platform of the Hague Tribunal, the most pathetic failure in history."

On the same question the St. Louis Globe-Democrat, a Republican paper, disagrees with Harding in his attempt to prove that Poland's troubles can be traced to the League of Nations. The League, it says, is an experiment that is entitled to every chance to make good.

"Poor old Marionette" soliloquizes the Philadelphia Record. "He has tried to straddle on the issue of the League of Nations and is clearly doomed to a bad fall."

The Ohio State Journal, Republican, asserts that Gov. Cox makes out a strong case in his slush fund charges that can't be answered by mere denials.

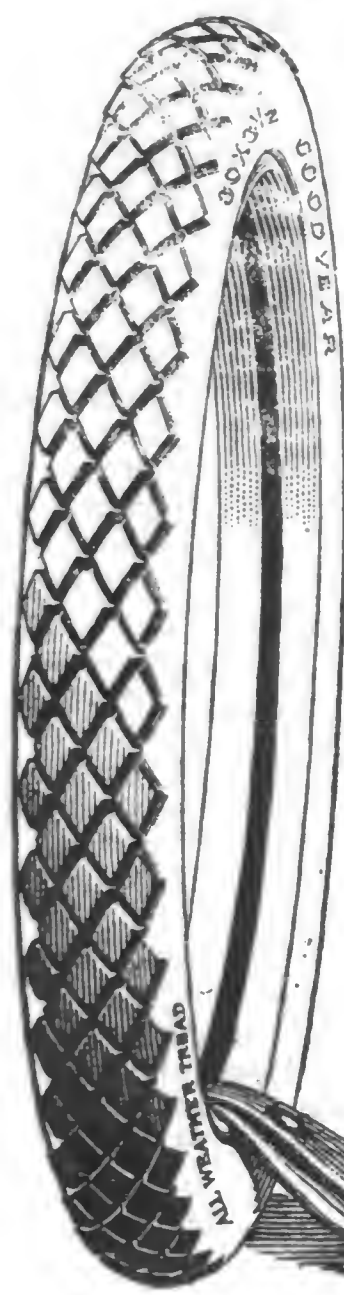

Miracle Shrine.

Tales of miracles performed at Templemore, Ireland, were recently told by eleven Catholic priests who returned to this country on board the steamship Corona.

The Rev. Father J. Dawson Byrne, Beresford, S. D., who was born and educated in this country and ordained in Chicago, discussed his visit to Templemore September 2, 3, and 4.

"The place where all these miracles have been performed," said Father Byrne, "is in a bedroom of a small thatched cottage where the Blessed Virgin appeared to James Welsh, a poor boy 17 years old, July 2 and told him to dig a small round hole in the

Low-Cost Mileage—in Goodyear Tires for Small Cars

There is no economy in buying so-called bargains in tires offered at sensationally cheap prices when a well-made tire delivers mileage at a considerably lower rate of cost.

Add the time and trouble occasioned by frequent replacements and it is fully apparent why tire users, seeking real mileage economy, are not attracted to very cheaply priced tires.

The popularity of Goodyear Tires, of the 30x3-, 30x3½- and 31x4-inch sizes, is based on the fact that they are built to deliver exceptional mileage at low cost and consistently do so.

If you own a Ford, Chevrolet, Maxwell, Dort or other car taking these sizes, go to your nearest Service Station for Goodyear Tires—for true Goodyear mileage, value, economy.

What's Inside a Tire-- Miles or Disappointment?

We have seen enough grief coming from tires that have no name on them at all, or some name that nobody ever heard of—tires that cost enough to be good but were in the end a disappointment.

For years we wished that some real manufacturer would come out with a small car quality tire that would sell at a low price. Now we have it.
